

Spanish for Kindergarten – 3rd Grade

This engaging and dynamic Spanish class is designed for young learners in **Kindergarten through 3rd grade**. Because children remember better and retain concepts longer when they learn through repetition, it is completely okay—often even beneficial—for students to take this course more than once. Each session builds on **core vocabulary** while introducing new weekly themes, keeping the class fresh and reinforcing for returning students.

The primary goal of this course is to develop **listening and speaking proficiency** in Spanish through fun and meaningful activities. One of the most powerful tools in this program is learning through **music and songs**, which naturally encourage participation and help reduce the fear of making mistakes.

To support practice at home, I create a **class website** each year using Padlet, where I post weekly activities, games, and links to the songs and videos we use in class. Students also gain access to **Rockalingua**, an interactive online platform that reinforces what we do in class. Each child also receives a **folder** to help keep track of materials and vocabulary learned throughout the session.

This class creates a **joyful, supportive environment** where children feel confident, engaged, and excited to learn Spanish!

If the class is full, please send me your interest to be added to the waitlist.

Spanish – Building Fluency (Grades 4–6).

This continuation course is designed for students who have already completed an introductory Spanish class. The goal of **Spanish – Building Fluency** is to deepen language proficiency with a strong focus on **conversation skills and speaking fluency**.

Students will build on their foundation as they engage in more advanced conversations, strengthen listening comprehension, and improve reading and writing abilities.

Through engaging and interactive lessons, students will gain the confidence to express themselves more naturally and effectively in Spanish. The class is held in a **fun, supportive, and immersive environment**, making learning both meaningful and enjoyable.

👉 While this course is primarily designed for returning students, I welcome new students who are **ready to commit to consistent practice and participation**.

If you have any questions or would like help determining if this class is the right fit for your child, please don't hesitate to contact me before registering.
